Ms. Lorraine Légère
Board of Commissioners of Public Utilities
P.O. Box 5001
15 Market Square, Suite 1400
Saint John, NB E2L 4Y9

Dear Ms. Légère:

RE: 2006 Construction Plan

Pursuant to the Board of Commissioners of Public Utilities (Board) Decision dated June 23, 2000, Enbridge Gas New Brunswick (EGNB) is filing its 2006 Construction Plan (Plan) with the Board. In accordance with that decision and requests made by the Board on February 2, 2005, the attached Plan includes the following:

- Forecast of Customer Additions (by municipality and rate class);
- Forecast of Throughput Additions (by rate class);
- Forecast Distribution Plant (length in metres, by municipality);
- Forecast Capital Expenditure (by distribution mains and services);
- Preliminary Routes (in the form of 'On-From-To'); and
- Names and contact information of all licensed gas marketers to whom a copy of the attached 2006 Construction Plan will be sent.

Integral to EGNB's growth strategy, pipeline construction in 2006 will be based on firm commitments from customers. As such, EGNB wishes to stress that the routes identified are preliminary and actual construction will depend on whether there is sufficient contracted demand on the potential route to warrant the expenditure. EGNB will be working closely with industry stakeholders to ensure that they understand the preliminary nature of the proposed routes.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelley Black, CGA
