Secretary of the Board of Commissioners  
of Public Utilities

Dear Ms. Légère:

**Enbridge Gas New Brunswick – Rate Application NBPUB 2004/001**

I am enclosing, on behalf of Enbridge Gas New Brunswick (“EGNB”), 15 copies of an Amended Application to Change Rates together with a blacklined version showing changes made to EGNB’s application.

By application dated February 18, 2004, EGNB requested approval to change its Small General Service, General Service (“GS”) and Contract General Service (“CGS”) Rates. However, in preparing the evidence we realized that as EGNB’s rates for Off Peak Service (“OPS”), Contract Large Volume Off Peak Service (“CLVOPS”) and Natural Gas Vehicle Fueling (“NGVF”) are derived (as described in A18 of the evidence) from the GS and CGS rates, they should also be changed. The Amended Application to Change Rates includes the OPS, CLVOPS and NGVF rates as part of the application.

As instructed by the Board, we are providing the amended application to each party that formally intervened in 2000 in either EGNB’s original rate application or the target rates hearing. Interested parties can find the application, information provided to the Board in support of the application and the Order of the Board in relation thereto on EGNB’s website at <http://www.amazingenergy.ca>.

I am informed that EGNB currently has no customers in, and is not aware of any potential customer currently considering, the OPS, CLVOPS or NGVF rate classes. If you have any questions or require additional information, please call me.

Yours very truly,

Len Hoyt
