Notice of Rate Adjustments

Enbridge Gas New Brunswick (EGNB) would like to advise you, our valued customer, of changes to our distribution rates, effective August 1, 2009. EGNB has received approval from the New Brunswick Energy and Utilities Board to adjust natural gas delivery charges.

There are three charges that determine your total cost of natural gas. The first is the monthly customer or demand charge which is not being adjusted. The second is the delivery charge which is being changed. The third, and the largest component of your total natural gas cost, is the charge for supply of the natural gas commodity.

EGNB delivers natural gas to customers at rates which are based on local market conditions targeted to provide savings against alternate energy products. In recent months, **natural gas commodity prices have decreased relative to oil prices** and based on these changes in the market place, EGNB has received approval to increase delivery charges in the Small General Service Residential Oil ("SGSRO"), Small General Service Commercial ("SGSC"), General Service ("GS"), Contract General Service ("CGS"), Contract Large Volume Off Peak Service ("CLVOPS"), Off Peak Service ("OPS") and Natural Gas Vehicle Fueling ("NGVF") rate classes. These changes are outlined in the table below.
