

Notice of Rate Adjustments

Enbridge Gas New Brunswick (EGNB) would like to advise you, our valued customer, of changes to our distribution rates, effective April 3, 2008. EGNB has received approval from the New Brunswick Energy and Utilities Board to adjust natural gas delivery charges.

There are three charges that determine your total cost of natural gas. The first is the monthly customer or demand charge which is not being adjusted. The second is the delivery charge which is increasing. The third, and the largest component of your total natural gas cost, is the charge for supply of the natural gas commodity.

EGNB delivers natural gas to customers at rates which are based on local market conditions targeted to provide savings against alternate energy products. In recent months, **electricity prices have increased in comparison to natural gas.** Based on these changes in the market place, EGNB has received approval to increase delivery charges in the Small General Service Residential Electric ("SGSRE") rate class. These changes are outlined in the table below.

Natural Gas Distribution Charges as of April 3 2008

RATE CLASS	Customer or Demand Charge	Approved Delivery Charge (\$/GJ)	Current Reduced Delivery Charge (\$/GJ)	April 2008 Adjusted Delivery Charge (\$/GJ)
Small General Service Residential Electric (SGSRE)	\$16.00/month	\$7.6212	\$3.4377	\$4.2810

EGNB provides safe, reliable distribution of natural gas. The price that EGNB charges for the distribution of natural gas is regulated by the New Brunswick Energy and Utilities Board and can only change with their approval.¹ The price is based on market conditions and may increase or decrease significantly over time. If you wish to receive notification of delivery rate changes in the future by email, please email us at egnb_mailbox@egnb.enbridge.com.
